- 250-ft / 76-meter viewing range
- Displays 6 digits (999,999 or -99,999)
- Auto-learn feature (automatically selects input protocol)
- Daisy-chain multiple units together for viewing multiple axles and total weight simultaneously
- Mirror image mode for viewing weights in vehicle rearview mirrors
- Field upgradeable: bootloader allows the firmware to be upgraded in the field
- RS232, RS422/485, and 20mA current loop standard connectivity or optional SnapStream wireless

With Cardinal Scale's SB600 remote display, you never lose visibility in low lighting or experience washout in full glaring sunlight. Scroll and display messages from a programmable indicator. Highly efficient LEDs virtually never need replacement and lower overall energy costs.

Durable weatherproof IP65-Rated stainless steel enclosure for use in a variety of environments.

Onboard intensity light sensor automatically adjusts to ambient light with 10 levels of brightness (total darkness to direct sunlight).

Comes with a two-piece bracket: a mounting bracket attached to the display and a pole/wall bracket that it locks into.

Convenient bottom access panel with slide-out controller board for easy access to internal wiring.

MOUNTING INSTALLATION AND WIRING IS MADE EASY WITH THE SB600 REMOTE DISPLAY
