

DIGITAL HANDRAIL SCALES WITH HEIGHT ROD

MODELS 6855MHR / 6856MHR

Model
6856MHR

- Weigh, measure, and BMI
- High 1,000 lb/450 kg and 600 lb/270 kg capacities available
- Stable handrail provides support during weighing
- Extra-wide and low-profile platforms
- 8 different models to choose from

Model
6855MHR

HIGH-CAPACITY WAIST-HIGH STAND-ON SCALES WITH HEIGHT RODS

- Ideal for obese and unsteady patients
- Integral wheels for transport
- Height rod measures up to 84 in/212 cm
- Body Mass Index
- Low-profile and wide-base platform
- Printer connectivity
- OIML Class III models available

Engineered and manufactured for obese and unsteady patients, DETECTO's 6855MHR and 6856MHR scales feature a balanced design that can be easily tipped back for transport on its rubber wheels. The low-profile platform, wide base, convenient handrails, and slip-resistant mat make them ideal for bariatric patients and aid user assurance while weighing.

The Lock/Release key can hold and release the patient weight, allowing the medical professional time to attend to the patient first and then record their measurements. The ability to print or save weight data is a real time-saving device for hospitals, clinics, doctor's offices, long-term care centers, and other medical facilities.

Wi-Fi/Bluetooth wireless connectivity available
Order models -C.

STABLE HANDRAIL FOR PATIENT ASSURANCE

Wraparound tubular stainless steel handrails with padded foam handgrips for patient stability and safety.

ROOMY PLATFORM WITH SLIP-RESISTANT MAT

The model 6856MHR's platform (shown) is 24 in W x 24 in D / 61 cm W x 61 cm D and the model 6855's platform is 18 in W x 14 in D / 46 cm W x 36 cm D.

EASY-TO-USE KEYPAD

The scale's indicator is easy to use with only 5 basic keys, plus directional arrows for factoring BMI.

LOADED WITH BARIATRIC WEIGHING FEATURES

Multi-Functional Handrail Scale with Wireless Transmission Capabilities

HIGH CAPACITY AND BMI FUNCTION

Choose from 600 lb/270 kg (685MHR) or 1,000 lb/450 kg capacity models (6856MHR)

QUALITY CONSTRUCTION

The scale's handrails are manufactured in beautiful stainless steel and almost all other components are powder painted mild steel for long-lasting durable construction.

HEIGHT ROD INCLUDED

The scale's height rod measures 24 in to 84 in x 0.1 in / 60 cm to 212 cm x 0.1 cm. The height rod accounts for the scale's platform height that it is mounted above.

Wi-Fi/Bluetooth wireless comes standard with -C models for EMR/EHR connectivity

Healthcare for disabled, obese, and elderly patients requires products which meet specific capabilities. DETECTO's 6855MHR and 6856MHR digital scales cover a wide range of patient type weighing and measurement needs in hospitals, rehabilitation centers, nursing homes, and dialysis centers.

The scale's sturdy stainless steel handrails allow users the advantage of a firm brace to hold onto while weighing and measurement takes place. This makes the life of the nursing staff easier during the process. Since the handrail is built into the weighing platform, you are assured that all measurements are highly accurate when the patient supports themselves on it.

With the BMI function capability, you can determine the ratio of the weight to height using the indicator's arrow keys, which provides objective data on the nutritional condition of the patient.

INTEGRAL WHEELS

Dual integral wheels allow you to tip the scale back and roll it wherever needed for transport within your facility.

BATTERY POWER

The scale may be powered by 6 AA batteries (not included) allowing you to use it anywhere.
