

8432-CH SERIES

DIGITAL BABY SCALES WITH INCLINED SHELL SEAT

Infants readily accept the inclined seating of DETECTO's 8432-CH series digital pediatric scales. The built-in, shell-shaped seat is made of plastic material and fun for children to sit in while weighing.

With pound and kilogram readings and heavy-duty steel base and understructure for support and stability, these pediatric scales have a lot to offer.

- Digital speed and accuracy
- 44 lb / 20 kg capacity
- Clinical accuracy to .05 lb / .02 kg
- Simple-to-use weight indicator
- Battery or AC power
- Solid steel base for steady assurance while weighing
- Pushbutton tare removes blanket weights
- Units locking into pounds or kilograms for safe dosages

The DETECTO 8432-CH series pediatric scale with inclined chair seat is ideal for use in health clinics and medical practices for weight measurement of infants and tots. The scale has an easy-to-clean, seashell-shaped plastic seat for optimal comfort of the child and a durable, sturdy enameled steel scale base.

The 8432-CH has a lock-in weight feature which compensates for typical baby movement. The crisp LCD features 0.75 inch high digits for easy readouts.

DETECTO's plastic shell-shaped inclined seat on the 8432-CH series baby scales makes weighing fun for pediatric patients.

The weight indicator is conveniently situated over the top of the shell seat, so it's easy to read the weight while the baby is seated.

DETECTO reserves the right to improve, enhance, or modify features and specifications without prior notice.
