

# REMOTE WEIGH

# TURN YOUR APPLE DEVICE INTO A WEIGHT INDICATOR REMOTE CONTROL

Connect With Up to 8 Different Weight Indicators Simultaneously

RemoteWeigh makes your iPhone, iPad or iPod touch into a remote control for your Cardinal/Detecto weight indicators. Up to eight different weight indicators may be connected simultaneously.

Real-time updating weight is displayed. Provided functions include zero, tare, gross/net, ID, and change units. RemoteWeigh may be used as an 825 indicator remote control and supports Cardinal prompting protocol.

Weight tickets may be printed to AirPrint printers, or shared via email or iMessage/SMS. Supported weight indicators include ScaleNet, 190 with network option, 200 series with network option, 201, and the 825. Scroll left or right on iPhone or iPod touch to show all weight indicators. An iPad will show four indicators simultaneously.

- Compatibility Requires iOS 8.0 or later. Compatible with iPhone, iPad, and iPod touch.
